CHANDIRA DENUWAN SERASINGHE

0423383802

13 Ronald Street, Bexhill North, VIC

chandiraserasinghe@gmail.com

I am currently pursuing a Bachelor of Business Information Systems, with a strong interest in IT support, systems, and business with system development. My background combines technical knowledge, practical experience, and strong problem-solving skills gained through university projects and hands-on roles in technical support and customer service. I excel in fast-paced environments, communicate effectively with both technical and non-technical users, and am always eager to learn new tools and technologies. I'm looking to join a forward-thinking IT team where I can apply my skills, continue to grow professionally, and contribute to secure and efficient tech solutions.

EDUCATION

currently

Bachelor of Business Information System at AIH (Melbourne)

TECHNICAL SKILLS

- Technical Skills
